

### Data Recovery Analysis Application

The hard drive, which will be analyzed by **Data Analyzers, LLC Data Recovery Technician**, was in the following condition \_\_\_\_\_ when received by Data Analyzers.

Data Analyzers will do its best to safely analyze the hard drive and its data. The client is handing the hard drive which holds the following model number \_\_\_\_\_ and the following serial number \_\_\_\_\_ to an authorized Technician of Data Analyzers who has been equipped to handle and transport the hard drive.

You understand that the media/data/equipment you are making available to DATA ANALYZERS LLC is already damaged, that data recovery efforts can result in further damage, that your media and/or equipment warranties may become void and that DATA ANALYZERS LLC is not responsible for this or any other type of damage.

Data Analyzers cannot guarantee an extension to the factory warranty after the hard drive has been opened. Data Analyzers will notify the client of the condition of the hard drive, after performing an analysis.
